

palmstudio

interior • set • eventdesign

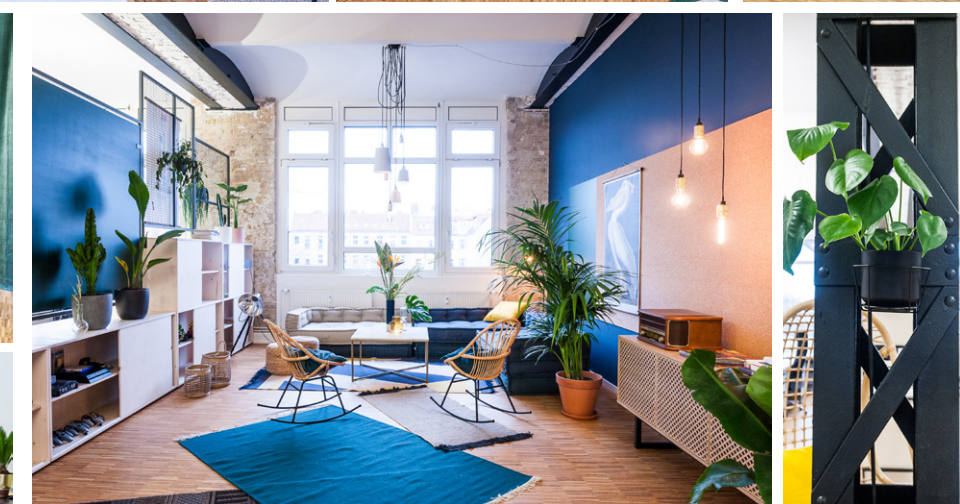

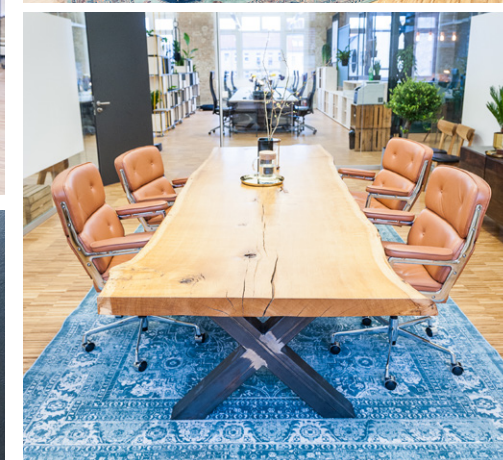

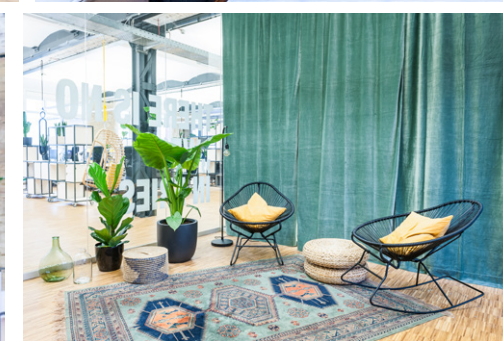

Palmstudio Berlin is a creative and production studio specializing in spatial and experiential design with a strong expertise in architecture, design and contemporary lifestyle.

We do interior-, set -& event design. For everything else we know who to ask.

We are a small, independent and flexible studio/agency/ team - by choice. Because we only do projects we believe in, that challenge us and that we want to fully commit to. We believe in collaborating, always strive for more diversity of thought so we are able to think of new angles.
